- Git

PROFILE

MCA Student eager to learn and passionate about software development. Strong familiarity with programming languages including Java and C and deep understanding of data structure and algorithm. Looking for an entry-level role in a software engineering environment to further develop my skills

INTERNSHIP

Spectra Square | UI Developer

August 2023 – Present

Implemented React.js in a practical way specializing UI developments. This real-life experience enabled me to gain the abilities and knowledge necessary to excel as front-end React.js developer."

CodSoft | Web Development Intern

Sep 2023- Oct-2023

I gained hands on experience with basic principals of web development. This opportunity gave me a good hands-on understanding of frontend web development which helped me in understanding the basic concepts behind several core technologies

PROJECTS

Telecom Churn prediction | AI ML

Dec 2023 - Feb 2023

It involves utilizing data analytics and machine learning to forecast which customers are likely to switch to a different telecom provider, helping companies proactively retain their customer base.

Shopmart | Python Mysql HTML CSS JavaScript

Mar 2023- Jun-2023

ShopMart is a tech-driven e-commerce project It offers users a seamless shopping experience, including product browsing, secure authentication, a shopping cart, and efficient checkout processes. The project's technology stack ensures robust functionality and data management for a successful online retail platform.

ACHEIVEMENT

Completed 100+ questions on LeetCode

Secured the third rank in my graduation class
